

# Cash Gifting Call Center Launches To Huge Success

*Cash Gifting Call Center Launches! New Members Get Cash Gifts Automatically. An Industry First*

Cash Gifting Is literally exploding online! If You have been paying attention even just a little bit or seeking a way to make money online, there is no doubt that you have seen it. Make no mistake about it, cash gifting is for real!

Launched April 17,2008 by a private group of cash gifters its literally changing the industry! Now even the newest of gifters will not have to wait months and months to start receiving gifts! With the new cash gifting call center those that are brand new to marketing or those simply pressed for time are now seeing immediate results!

Here is how the exclusive Call Center works! After the New Member qualifies to start receiving cash gifts, he or she is immediately plugged into the call center with zero fees due upfront and zero monthly fees ever! Once plugged in the new member is assigned their own account rep! The Account Rep at the cash gifting Call center is given new fresh business opportunity seeker leads that are called on daily! Once the Account Rep Finds an interested individual, the Full amount of the cash gift is sent directly to the member. The Member will then send a predetermined amount back to the call center!

This is an incredibly effective way to leverage ones time! For example if a member is new to marketing they can use the call center until they are up to speed with their own marketing. If a member is well seasoned he or she is welcome to use the call center in addition to their own marketing efforts effectively improving their use of time!

If the Cash Gifting Activity is on your radar beginning marketers and seasoned pros alike will appreciate the immediate gifts generated by the new and Exclusive Call Center!
